## RECORD OF A GREAT MEDICINE

Doctors Could Not Help Mrs.  
Templeton—Regained  
Health through Lydia E.  
Pinkham's Compound.

Hooper, Nebraska.—"I am very glad to tell how Lydia E. Pinkham's Vegetable Compound has helped me. For five years I suffered from female troubles so I was scarcely able to do my work. I took doctors' medicines and used local treatments but was not helped. I had such awful bearing down pains and my back was so weak I could hardly walk and could not ride. I often had to sit up nights to sleep and my friends thought I could not live long. At my request my husband got me a bottle of Lydia E. Pinkham's Vegetable Compound and I commenced to take it. By the time I had taken the seventh bottle my health had returned and I began doing my washing and was a well woman. At one time for three weeks I did all the work for eighteen boarders with no signs of my old trouble returning. Many have taken your medicine after seeing what it did for me. I would not take \$1000 and be where I was. You have my permission to use my name if it will aid anyone."—Mrs. SUSIE TEMPLETON, Hooper, Nebraska.

The Pinkham record is proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

## NO NEWS OF ARMY BIDS

Up to 3:15 this afternoon Major Cheatham, chief quartermaster of the Department of Hawaii, had received no word from Washington as to whether The Hawaiian Dredging Co. or the Spalding Construction Co. would be awarded the \$300,000 contract for constructing the cavalry post at Schofield Barracks.

The bids, which were opened yesterday, were somewhat out of the ordinary for government work here. Owing to the fact that there is a prospect of the \$400,000 authorized for the work but not appropriated, not being made available until the next session of Congress, the quartermaster called for proposals to do the work on a cost and percentage basis, the money to be paid when it became available. In other words, the bidders offer to do the work for the government, and charge a certain percentage for their profits, the use of their money, and incidental expenses. The payroll and all actual cost of the work is to be carefully checked by the government, and paid when the cash is on hand.

One bidder yesterday made a straight percentage proposition, while the other bid on a sliding scale depending on how long the payments were delayed. Major Cheatham couldn't decide which was the most advantageous for the government, and called the bids to Washington for decision.

Originally \$600,000 was authorized for the cavalry post, and \$200,000 of this made immediately available. The quartermaster's department expended nearly this entire sum purchasing all the material for the job, leaving very little money to continue the work. Therefore the news that the balance of the appropriation would be held up came like a bombshell. Unless one of the local bids is accepted, work will stop within a few days.

On the infantry quarters, nearly all of the \$80,000 appropriation has been spent on the purchase of materials, and the erection of the steel framework of the houses. Unless Congress comes through with the balance of this appropriation, which is a like sum of \$80,000, work on the infantry quarters will also come to a halt, and Schofield construction will be permanently tied up, to the great disorganization of the system and force which Major Cheatham and Captain Edwards have so carefully and effectively built up.

Manila Times: The number of cigars exported to the United States from the Philippines during the fiscal year closing June 30 exceeds the record of the previous year by over 200 per cent according to figures prepared at the custom house.

The customs figures show that 69,880,468 cigars were exported to the United States during the past year as against 22,974,000 in 1910-1911 and, in fact, with the single exception of the fiscal year, 1909-1910, the first year of the workings of the Payne bill when the American market was flooded with smokes of all grades and \$3,931,000 cigars were sent to the homeland, the past year broke all records.

Despite a published statement that sugar exports of the Philippines to the United States for the fiscal year ending June 30 had decreased 200 per cent, last year's exports to America totaled 164,015 metric tons, the greatest amount of sugar ever taken from the Philippines by the United States and an increase of more than 29 per cent over the figures for the previous banner year, 1910-1911.

## Cable News AMERICAN SHIPS ARE FAVORED

[Associated Press Cable]  
WASHINGTON, August 9.—By a majority which annihilated party lines, the Senate today passed the amended Panama bill providing for preferential duties in favor of American ships. The vote was forty-seven to fifteen.

Late dispatches from London quote English papers as reporting indignant protests from British shipowners and shippers against the action of the United States Senate in ignoring clauses in the Hay-Pauncefote treaty regarding the rights of Great Britain in canal toll preferences. It is predicted by many of the British shipowners that in case these preferential tolls are enforced that British trade will follow along the old lines rather than use the canal.

## DEMOCRATS AGREE TO ONE DREADNOUGHT

WASHINGTON, August 9.—It was announced here tonight that the Democrats have at last decided to agree upon one superdreadnought for the naval program this year. A caucus has been called by the leaders of the Bourbons in Congress for Wednesday, at which this and other questions will be taken up. The change in the Democratic program, it is reported, was affected through the efforts of Richmond P. Hobson.

CONSTANTINOPLE, August 9.—Fire and earthquake combined have already caused the destruction of three hundred houses in this city and the conflagration is raging beyond immediate control. Thousands are homeless and it is feared that many have perished. The fire was caused by an earthquake, which, while not a severe one, upset a lamp.

The prefect of police at once turned out the gendarmes to guard the burned area. The military authorities in command of the garrison sent cavalry and infantry patrols to assist the police. Citizens have joined with the firemen and military in fighting the flames.

## TEDDY OPENS HIS RHODE ISLAND FIGHT

OYSTER BAY, Long Island, August 9.—Theodore Roosevelt today opened his campaign in Rhode Island. He spoke in a number of cities and made a whirlwind rush through the State. He was received with tremendous crowds wherever he spoke.

## TRUST COMPANY OFFICIAL FACING SERIOUS CHARGES

SAN FRANCISCO, August 9.—William Corbin, secretary of the Continental Building & Loan Association, which is in financial difficulties, facing the charge of perjury in filing with the Secretary of State a false report of the institution's financial condition.

## NO WILSON COIN YET IN SIGHT

SEAGIRT, New Jersey, August 9.—Governor Wilson in discussing the financial status of the Democrat war chest declared today that so far as he knows the Bourbons have not received a single contribution from any of the large corporations and he does not anticipate receiving any support, financial or otherwise, from them.

## MADERO REFUSES TO GRANT AN AMNESTY TO GENERAL OROZCO

CITY OF MEXICO, August 9.—General Orozco, weary of fighting in a hopeless cause, has again sent a personal communication to President Madero, suing for peace. The leader of the revolutionists asks that an amnesty be granted to those now in arms. The President has refused to grant the request.

## THE LONE BULL MOOSE

We invite the attention of our countrymen to Colonel Theodore Roosevelt of Oyster Bay, L. I. He needs their attention not so much as their sympathy. He doesn't ask it; he would resent it, but it should be his. Merciless disasters one after another beset and pursue him. Chicago made him the Bull Moose candidate, Baltimore unmakes him. One by one his strong men left him—Hadley, Deneen, Aldrich, Stubbs, the Thane of Winchester, and, finally, Ormsby McHarg. When McHarg quits, the cause must be in a pretty bad way. Nothing but certain bankruptcy could stale the infinite variety of his service and devotion.

Now the little men are bowed down with the weight of accumulating woes. A veritable old Tory reactionary put in nomination at Baltimore might have left an opening for the Bull Moose party. The reasoned and sane progressivism of the Democratic candidate who was nominated shuts the door of hope on the Colonel's aspirations. Mr. Roosevelt can promise the people nothing that they desire and should have, no needed remedies or reasonable reforms, which can not be better wrought out by the steadier hand of Woodrow Wilson. The Republican bolting adventure is now stripped of every shred of justifying principle. There remain only vindictive passion against President Taft and the determination to make sure of his defeat. That is not a principle. On that alone the Roosevelt party would starve to death.

But they say that the view from Sagamore Hill is singularly pleasing to the eye of a quiet man, fond of the contemplative life.—New York Times.

If "faint heart ne'er won fair lady," it kept out of a lot of trouble.
